LAS VEGAS--([BUSINESS WIRE](#))--Beginning Jan. 17, DISH Network L.L.C., a subsidiary of DISH Network Corporation (NASDAQ: DISH), will extend its promotion offering qualified new subscribers the choice of an iPad® instead of first-year programming discounts for customers who sign up for the Hopper® with Sling® Whole-Home HD DVR and a qualified programming package. As part of the extension, DISH will now offer customers the enormously popular iPad Mini, which is lighter, slimmer and easier to carry than the tablet previously featured in the promotion.

"People are on the go more than ever and it's critical DISH provides a service that fits into their lives," said James Moorhead, chief marketing officer of DISH. "With the combination of the Hopper, our acclaimed mobile apps and now our free iPad Mini offer, DISH provides the industry's best mobile video experience."

Last month DISH announced its updated DISH Anywhere™ app for iOS devices. Among the enhancements is the integration of the Hopper Transfers feature, giving customers the ability to view recorded content when no Internet connection is available.
